To Dr. Michael Long and Renaissance Chiropractic Center Staff:

The past year for me has been one of poor health, both physically and mentally. I have leaned on family, friends, co-workers and doctors to get me through this difficult time.

I was suffering with severe headaches (not my usual migraines) and nausea that resulted in continuous trips to the Emergency Room and eventually being admitted to the hospital for five days. When released the headaches continued, but I was also diagnosed with depression and anxiety and was off work for four months. Even with the help of several doctors and medications for the headaches and nausea, they persisted and I felt at a loss for what was the next step to take.

I knew that the providers in the OB-GYN office I work at refer their patients to Renaissance Chiropractic Center for various health problems, including headaches. I was not sure this was what I should do, but with my husband's encouragement, I made the call.

I remember Shirley answered the phone and assured me that I could be helped, I could be seen within two hours of my phone call and that I would be seeing Dr. Michael Long. Little did I know that it would be a continuing doctor/patient relationship and "the best phone call I had made in a long time!"

Dr. Mike has been a blessing to me! He has worked hard with me in the last ten months to bring me where I am today: nearly headache free! He has taken the time to teach me what works and doesn't work for me. I continue to be a "work in progress" as I still have trouble with stress related headaches. Thank goodness Dr. Mike and Renaissance Chiropractic Center are only a phone call away.

The front desk staff - Shirley, Terri and Ashley - is extremely helpful and cheerful. They always greet me by name and do everything they can to accommodate my appointments with my schedule.

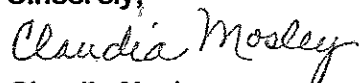

Renaissance Chiropractic Center also works with me financially. My insurance only allows ten visits per year and I have needed so many more. With the help of Dr. Mike and his billing staff, a plan was presented to me so I could continue care.

Thank you to the front desk staff and Dr. Roger for their continued help.

A special thank you to Dr. Mike for his time, effort and care which he continues to give me. I have come to rely on him and his staff. I will continue to highly recommend Renaissance Chiropractic Center.

Thank you for continuing to give me my life back!

Sincerely,

Claudia Mosley
